Alcohol Free Hand Sanitizer

**3 times more effective than
Alcohol Based Sanitizers**

New Pump Spray

(Inventory available and on hand)

- Alcohol free and will not dry out the skin
- Protects for 30 minutes after application (Alcohol based stops working after 10 seconds)
- Unprecedented efficacy with a 99.999% kill rate on Staph
- NSF-E3 approved (For food service and preparation)
- 125 applications compared to 39 for gel products (2 oz. container)
- Non irritating, Non flammable, Biodegradable
- Will not leave gel agents on the hands that can harbor bacteria
- Moisturizes while it protects
- Available in Aloe Brand or Custom (100 pc. minimum)
- Tested and FDA compliant

Aloe Up Alcohol Free Hand Sanitizer

is an extremely safe, effective, non-irritating, non-flammable, non-staining alternative to alcohol-based hand sanitizers. In addition to killing a wide range of common or dangerous microbes with unprecedented efficacy (99.999% reduction of Staphylococcus aureus) Aloe Up sanitizer has been proven effective against H1N1, Norovirus, MRSA and C-diff. Alcohol-based products cannot make this claim.
